Press Release

NEWS FROM AQUANAUTS GRENADA

The 'flag ship' "Calypso" is back in service – and Aquanauts is back on Grand Anse Beach!

Grenada, January 18th 2006: " We are so happy to have our main dive and snorkel boat back in service" says owner operator Peter Seupel. After complete refurbishing the deck, adding a fly bridge for captain's better overview and a camera table, "Calypso" now again serves as the boat for customers on famous Grand Anse Beach. With its unique feature of an open bow it makes access from the beach very easy and provides ample space for divers and snorkelers alike. Together with the reliable service of the other two custom build dive boats "Salsa" and "Soca" it gives Aquanauts the ability to serve guest more individually and avoid crowds; assigning groups according to their experience level.

Just in time for the winter season Aquanauts also opened its doors on Grand Anse Beach again. Situated at the world renowned Spice Island Beach Resort, the full service dive and water sports center offers scuba diving courses and daily dive trips to Grenada's beautiful reefs and exciting wrecks. Dedicated snorkel trips and marine biology courses are a new feature in the wide repertoire of Aquanauts adventures. The store features snorkel equipment, fish & snorkel guides, kids books and toys, t-shirts and beach wear. Come in and browse!
